

# ALEX AGUILAR

Kansas City, MO | 702-980-8150 | [xpertmarxman@gmail.com](mailto:xpertmarxman@gmail.com) | [myportfolio-psi-tawny.vercel.app](https://myportfolio-psi-tawny.vercel.app) | [github.com/alex-sysdev-dev](https://github.com/alex-sysdev-dev) | [linkedin.com/in/alex-a-47333223b](https://linkedin.com/in/alex-a-47333223b)

## PROFESSIONAL SUMMARY

---

Operations and warehouse leader with 8+ years of experience managing high-volume distribution environments, automation systems, and cross-functional teams. Proven ability to improve throughput, reduce downtime, increase inventory accuracy, and implement data-driven process improvements across logistics and manufacturing operations. Experienced in SAP-integrated warehouse systems, automation technologies, and union workforce leadership. Full-stack developer building operational software from firsthand industry experience.

## CORE SKILLS

---

- **Operations Systems:** WMS, SAP ERP, Kronos Labor Management, Yard Management Systems.
- **Process Improvement:** Lean Manufacturing, Root Cause Analysis (RCA), Six Sigma methods.
- **Leadership & Compliance:** Team leadership, union workforce management (CBA), safety compliance (EHS, WCM).
- **Technical Systems:** Warehouse Control Systems (WCS), PLCs, CNC systems, robotics integration.
- **Analytics & Reporting:** Tableau dashboards, Excel automation, KPI reporting, Proprietary Systems (Walmart Fulfillment, Amazon SSD).
- **Training & Implementation:** User Acceptance Testing (UAT), workforce training, change management.
- **Software Development:** JavaScript, TypeScript, React, Next.js, RESTful APIs, Git/GitHub, Frontend Web Development, Database Integration, Supabase, OpenAI API, MCP Servers.

## TECHNICAL PROJECTS

---

### BlueLineOps – Warehouse Operations Intelligence Platform

Next.js, React, PostgreSQL (Supabase), REST APIs, Git, Vercel | [bluelineopsok.vercel.app](https://bluelineopsok.vercel.app)

- Architected and developed a full-stack logistics operations platform supporting yard management, inbound receiving, QA inspection, inventory control, and outbound fulfillment workflows.
- Designed a relational PostgreSQL data model integrating warehouses, trailers, yard spots, shipments, products, inventory bins, orders, and operational tasks.
- Built a task-driven warehouse execution system for putaway, replenishment, and order picking with real-time labor assignment.
- Implemented bin-level inventory tracking and order fulfillment logic, enabling traceability from inbound shipment through QA, storage, picking, packing, and shipment staging.
- Deployed production infrastructure using Supabase, Git, and Vercel, enabling real-time operational dashboards and scalable API-driven architecture.

### FreelancerOS — Financial Management Platform

Next.js, React, Airtable API, Git, Vercel | [freelancer-os-gray.vercel.app](https://freelancer-os-gray.vercel.app)

- Architected and developed a full-stack web application to track, manage, and visualize real-time freelance revenue and project data.
- Engineered secure backend REST APIs to establish a seamless, two-way integration between a Next.js frontend and an Airtable database.
- Implemented environment variables to securely manage sensitive API keys and maintained version control using Git and GitHub.
- Deployed the production build via Vercel, ensuring a highly responsive user interface and dynamic data rendering.

### Notes Assistant — AI-Powered Task Tool

OpenAI API, React, GPT-4 | Local Application

- Built an intelligent assistant using the OpenAI API to help users capture, organize, and act on tasks and notes through natural language input.
- Designed GPT-4 prompt workflows that extract structured, actionable items from unstructured user input.

## PROFESSIONAL EXPERIENCE

---

### Developer

BlueLineOps — Operational Intelligence Platform for Logistics & Warehousing

- Architected and developed a full-stack warehouse operations platform to manage yard movements, inbound receiving, QA inspections, inventory, and outbound order fulfillment.
- Designed and implemented a relational PostgreSQL data model supporting core WMS workflows including trailers, yard spots, inbound shipments, putaway tasks, bin-level inventory, pick tasks, pack stations, and replenishment logic.
- Built operational task engines for order picking and labor assignment, linking warehouse associates to work queues and pack stations in real time.
- Developed event-driven warehouse workflows enabling traceability from trailer arrival through inbound receiving, inspection, storage, picking, and outbound shipment.
- Implemented analytics-ready data structures for labor tracking, order forecasting, and operational performance dashboards.

### Tax Preparer

Jackson Hewitt — Kansas City, MO | Sep 2025 – Present

- Conduct client interviews to gather financial information and prepare accurate federal and state tax returns.
- Prepare individual and complex Form 1040 filings, including multi-state returns.
- Identify tax-saving opportunities and educate clients on deductions and credits.
- Maintain compliance with IRS regulations and evolving tax laws.

### Area Manager

Amazon — Kansas City, MO | Mar 2024 – Apr 2025

- Managed daily warehouse operations across multiple fulfillment zones in a high-volume distribution environment.
- Supervised associate teams ranging from 32–55 hourly employees, while maintaining safety, quality, and productivity standards.
- Improved shift planning using forecasting dashboards, reducing downtime by 15%.
- Maintained 98% on-time operational performance through KPI monitoring.
- Reduced dock turnaround time by 10% through process optimization.
- Partnered with Engineering, IT, Safety, and Quality teams to resolve operational bottlenecks.

### Warehouse Supervisor

Upfield — New Century, KS | Feb 2023 – Feb 2024

- Directed warehouse and distribution operations using SAP-integrated WMS.
- Maintained 99% order accuracy through cycle counting and inventory audits.
- Reduced downtime by 12% through Root Cause Analysis initiatives.
- Automated reporting workflows, reducing manual data entry by 40%.
- Managed union workforce operations under CBA guidelines.

### Area Manager

Walmart — Topeka, KS | Jun 2022 – Dec 2023

- Supported the launch of Walmart Fulfillment, driving startup operations, staffing, and process execution.
- Maintained 97% on-time fulfillment through labor planning and execution.
- Increased throughput and productivity by implementing standard work and continuous improvement initiatives.
- Provided cross-functional leadership across Operations, Safety, HR, Maintenance, and Quality.

### Systems Lead

Walmart — Topeka, KS | Aug 2021 – Jun 2022

- Managed warehouse control systems (WCS) and automation performance.
- Reduced unplanned downtime through predictive maintenance initiatives.
- Resolved technical bottlenecks using Tableau dashboards and operational data.
- Served as liaison between Operations, IT, Maintenance, and Engineering.
- Led training and adoption of new automation technologies utilizing Gemba and Kaizen.

## Site Expert Trainer

Frito-Lay — Topeka, KS | Jul 2015 – Feb 2021

- Led technical training programs for processing and production teams, increasing operator capability and reducing ramp-up time.
- Partnered with Engineering to commission and launch new processing lines.
- Improved equipment efficiency and reduced product waste by analyzing downtime trends.
- Developed and delivered training curriculum for operations and safety procedures.

## Combat Instructor

United States Marine Corps — Camp Pendleton, CA | Nov 2002 – Nov 2014

- Trained and mentored 2,000+ Marines in advanced combat tactics, weapons systems, and mission readiness.
- Led planning and execution of large-scale field exercises, coordinating logistics, risk management, and cross-unit communication.
- Directed safety and compliance for live-fire and field operations, maintaining strict adherence to military standards.
- Developed and refined curriculum for the School of Infantry West, designing structured training programs and evaluation standards.

## EDUCATION

---

### Bachelor of Science — Information Technology

Southern New Hampshire University, 2023

## CERTIFICATIONS

---

IRS Preparer Tax Identification Number (PTIN)
